## **BOOK SYNOPSIS**

Excellent resource for those caring for patients with distressing symptoms in hospice, cancer or community settings. Includes detailed nursing assessments of etiologies of distressing symptoms, treatment guidelines using the algorithmic model for pain, dyspnea, diarrhea, and all other distressing conditions as well as common issues such as skin care, seizure protocols, management of falls, including lots of tables for adjuvant therapies, scales to use for documentation of care, and non pharmacologic interventions. Caring communication, spiritual assessment and guidelines as well as cultural sensitivity guides are included. An awesome practical pocket sized book for anyone in the hospice and palliative care field.
